

Admissions Packet

Introduction to Aerospace Manufacturing and Repair

NPC currently offers 135 hours of classroom training to help students gain the skills necessary to apply for entry level positions in the Aerospace industry. Area companies are looking for applicants with basic knowledge and skills.

Most aerospace companies require that applicants complete a rigorous pre-employment process that generally includes a comprehensive background check and drug screen. These requirements are not necessary in order to enroll in The Introduction to Aerospace Manufacturing and Repair class, but students should be prepared to meet these requirements in order to obtain a job.

Please return completed packet to:

National Park College
Community & Corporate Training
101 College Drive
Hot Springs, AR 71913
501-760-4135
training@np.edu
